Using Home Access Center

The Home Access Center is the website that allows families to access information about their students' attendance, enrollment, and grades (high school only). Here you can check on your student's course grade as well as grades on individual assignments. It will also show if an assignment is missing or incomplete. Teachers update grades a minimum of every two weeks. Parents are encouraged to check the site regularly and contact the teacher if there are any questions. Please share the information with your students, as they cannot access it themselves.

Home Access Center accounts are available to every parent who has provided an email address to the school. If you have never accessed the site before it is very easy to get started. On your first visit to the site you will need to select "Request Password" in order to set up your account. If you have used the site before but forgotten your password you can select "Forgot Password". If you have not submitted an email address to the school, please get an account set up and contact the office with your email address so you can set up a Home Access Center account.
