**Individuals with Disabilities Education Act  
Funding Information**

The Individuals with Disabilities Education Act (IDEA) was reauthorized in 2004. Part B, Section 611(a)2 of the Act<sup>1</sup> provides the maximum amount to be provided to the States. While the generally understood intent was for federal funding to be 40% of the cost of special education, the actual calculation is forty percent of national average per pupil expenditures multiplied by the number of children with disabilities served in the 2004-2005 school year, subject to several adjustments annually.

Actual federal appropriations are significantly less than the maximum authorized amounts. While the federal appropriation varies annually, it has recently been between 17.1% and 18.5%. “Full” funding of IDEA in fiscal year 2008 would have required an additional \$14.5 billion to be appropriated by Congress. As a result, a greater portion of the financial burden relating to educating students in accordance with IDEA falls to the state and local levels. The American Recovery and Reinvestment Act (ARRA) provides additional federal funding for the education of children with disabilities, but this funding will only cover two fiscal years. As new federal funding generally can only be used to cover additional or increased expenditures, it is difficult to dramatically affect the federal funding percentage with new funding.

Carroll County Public Schools special education expenditures and federal special education revenues in the general operating fund for fiscal year 2008 through 2010 are:

	<b>FY 2008</b> (Actual)	<b>FY 2009</b> (Estimated)	<b>FY 2010</b> (Budgeted)
