## UPDATES – SET Survey

- "I feel as though SET has, in many ways, has enhanced my efficiency when it comes to getting work done. It has thoroughly encouraged and made me really want to get all of my work completed. It has helped with extra-curricular activities and if I did not have enough time to get my work done last year, it would have unfortunately been marked incomplete, therefore putting my future at risk. Right now, my grades are off the charts. I have very, very good grades and expect to get into a great college and without these grades, my future would be at risk. I need SET, thank you for your time."
