

# Carpentry

Carpentry provides instruction in techniques used in commercial and residential construction. The course will include all aspects of construction from vacant lot to the finished product. Emphasis is placed on the coordination between vendors and other trades people who supply services needed at site for a completed project. The course also includes estimating prices relating to consumers and trades people, interpreting blueprints, and applied math.

## Major Units of Study

- Blueprint reading
- Estimating
- Finished carpentry
- Layout of footings and foundations
- Rough framing
- Safety
- Use of building products

## Related Careers

- Building Supply Salesperson
- Cabinet Maker
- Carpentry Technician
- Finish Carpenter
- Foreman

## Post-Secondary

- Apprentice Programs
- Articulated with the Associated Builders & Contractors, Inc. apprenticeship program
- Articulated with the Community College of Baltimore County
- Colleges
- Military Services
- On-the-job Training
- Technical Schools
