

Smart Phone Applications

- **Common Core Standards** is a smart phone application that provides easy phone access to the standards. Resources, such as appendices and glossaries, are also available via the application.
- **UDLinks** offers a variety of resources for educators to use in the classroom. Universal Design for Learning (UDL) is a set of principles for curriculum development that considers the needs of all individuals to create equal opportunity for learning. The UDLinks smart phone application provides information about the principles of UDL as well as resources for educators.

Universal Design for Learning Resources

- **Maryland Learning Links** is a resource for educators and families about issues related to special education and early intervention in Maryland. The Maryland Learning Links website provides information about UDL with children in special education.
<http://www.marylandlearninglinks.org/>
- **The UDL Wheel** provides guidelines and checkpoints to assist educators in designing flexible lessons and curricula that reduce barriers to learning and provide innovative and supportive learning to meet the needs of all learners. The guidelines can also help educators evaluate existing curricula goals, materials, methods, and assessments.
