

PEDIATRIC EYE EXAMS AND ONE YEAR OF FOLLOW-UP CARE FOR UNINSURED/UNDER-INSURED CHILDREN

Includes Children who have lost their health insurance due to COVID-19

**Launching in:
Maryland, Washington DC and Northern Virginia
In October 2020**

All US children (citizens/legal residents under the age of 18) who are unable to access care because of socioeconomic circumstances.

The American Association for Pediatric Ophthalmologists and Strabismus members volunteer to provide care for children who do not have the financial resources or health insurance to see a physician.

Children who have failed a vision screening or are presenting some other vision issue will be prioritized.

If you know of a child who has failed a vision screening or is having issues with their vision, please ask them to visit allchildrensee.org and complete the on-line application.
