

# **Carroll County Career and Technology**

## **XYP (eXplore your program)**

**Rationale:** Give students the opportunity to come explore a CCCTC program who have:

- (1) Applied to CCCTC program with an opening
- (2) Expressed interest in a program
- (3) Been identified by CCCTC as a provisionally accepted or provisionally on hold student

The programs that will be made available will be those where more applicants are historically/presently needed. This will benefit the student's chances of getting into (provisional hold students) or staying in (provisional accept students) the program. Refusing to come, not submitting the necessary permission slip, coming improperly dressed for safety, or missing the CCCTC bus may result in removal of the student's provisional status.

**Objectives:** Students will explore a program of interest at the Career and Technology Center so that they may better understand the rigor and expectations of the program. (Math, reading, skills, work load, responsibility, etc.)

**Invite:** Done through home school counselors.

### **Schedule (in general):**

8:15-8:30 Meet, attendance, introduction, and begin exploration packet (Initial thoughts about program.)

8:30 -9:20 Meet with instructor and run through individual project
