## Chemistry Current Events

**Directions:** While you are having an unexpected break from school, it is still important to view the science in the world around you. Find a current event article or watch a scientific documentary from youtube, Netflix, etc. Then write a summary-include something new that you learned and a connection you made to your prior knowledge of the subject and how it relates to chemistry,

**Article/Documentary Title:** \_\_\_\_\_

**Summary-what is it about?**

---

---

---

**What is something new that you learned?**

---

---

---

**What is a connection you made to something you learned in chemistry?**

---

---

---
